- Deploy with SMS, Tivoli or Group Policy
- Host with Citrix or WTS
Additional resources

- Acrobat IT Solutions
  http://www.adobe.com/products/acrobat/it.html

- Acrobat Developer Center

- Acrobat technical documentation
InstallShield Tuner 7.0 for Adobe Acrobat
Technology

Leverages industry-standard installer technology

- Provides a graphical user interface to Acrobat’s Windows Installer (MSI)

- Results in a Microsoft Transform File (MST) or a repackaged application

- Based upon InstallShield AdminStudio 6
Benefits

Key Benefits include:

- Save time in the application roll-out process, by eliminating scripts/registry edits and by following Tuner’s graphical user interface.

- Manage and control your enterprise environment, resulting in lower support costs and a simplified end user experience.

- Standardize the user experience and user PDF output, resulting in consistent content.
Acrobat Interoperability

- Customizes entire Acrobat 7 family of products
  - Acrobat 7.0 Professional
  - Acrobat 7.0 Standard
  - Acrobat 7.0 Elements
  - Adobe Reader 7.0
- Supports deployment to all Acrobat Windows operating systems
- Supports localized Windows clients and Acrobat applications
Demonstration
